

Discover the power of membrane technologies for sustainable separations and global challenges, guided by world-renowned experts

7 Expert Courses • 8 International Instructors • 1 Day Intensive Training

Ideal for

Zachary P. Smith
MIT, USA

Higher-education students •
Research Scientists.
Industry Professionals.

Topics

- Membrane Materials - **TC1**
- Water/wastewater Treatment - **TC2**
- Electrochemical carbon capture - **TC3**
- Membranes for Biotech/pharma - **TC4**
- Membranes for Gas Separation - **TC5**
- Membrane Fouling and Control - **TC6**
- Nonwoven Membranes - **TC7**

2 November, 2026 

Venue: cole Normale Superieure de Casablanca
Cassablanca, Morocco
